MESSAGE FROM PUAN NORI ABDULLAH Chairman, Yayasan Budi Penyayang Malaysia

The Kuala Lumpur International Batik (KLIB) Convention and Exhibition is a platform for batik lovers to come together in the spirit of sharing. It provides an opportunity for batik enthusiasts, people in the business of batik as well as retailers, designers, textile and dye developers to come together to showcase their products and to network. After the events of 2005 and 2007, the KLIB in 2009 promises to be a meeting of experts who have now become friends as well!

We are now seeking speakers for the KLIB Convention 2009.

My hope this time around is that there will be a wider variety of topics covered. We would certainly like to see more people from the business side of batik – successful retailers who can share with us their success stories; international textile retailers; as well as those who are on the cutting edge of technological innovations and developments.

While batik is an age-old craft, this doesn't mean that it should stay static. Batik must also develop with the times. If batik is to continue to be relevant, we must watch trends and respond accordingly.

I hope that speakers will come forward to share with us their expertise, experience and knowledge.

I look forward to meeting everyone again at KLIB 2009.

KLIB CONVENTION 2009 OBJECTIVES

- To develop an international network of batik enthusiasts
- To foster closer ties amongst batik producing countries
- To create a forum for batik craft and industry people across the world
- To share techniques, innovations, technology and marketing strategies for the batik craft and industry
- To focus on the long-term relevance, growth, progress and prominence of the batik craft and industry internationally.

THEME: "THE BUSINESS OF BATIK"

INVITATION TO SPEAKERS – LOCAL, REGIONAL AND INTERNATIONAL

Batik Guild Sdn Bhd and Yayasan Budi Penyayang Malaysia, the organisers of KLIB Convention 2009, would like to invite proposals from speakers – local, regional and international – for paper presentations or workshops for the Convention Programme to be held in early December 2009.

The theme, "The Business of Batik", is wide ranging and allows for topics on just about anything related to the batik craft and batik industry, including the wider topics of textiles and textile production, fashion and marketing, new technology, new trends in textile decoration, new applications as well as batik art history and craft & heritage preservation. We are open to topic ideas and suggestions and look forward to hearing from you.

The main language for the Seminar Programme is English. However, where topics by non-English language speakers are chosen for presentation, interpreters will be arranged.

SPEAKERS' EXPENSES

Return flights, accommodation and meals will be arranged for all chosen speakers.

DEADLINES

To avoid overlap with other speakers' topics and in order to give us sufficient time to market seminar topics and speakers to participants, speakers are advised to send their proposals to us as soon as possible.

- **Final deadline for submission of the Speaker's Registration of Intent form (overleaf): 31st May 2009**
- **Successful Speakers will be informed by: June 2009**
- **Successful Speakers will then be required to submit a full proposal by: September 2009.**
